

Physical Activity and Health

Edinburgh Napier University

Venues

Sighthill Campus

Content

The NHS is overrun with the diseases that are all around us, but what if they could be effectively managed or prevented? Our course on physical activity and health has been developed to teach our students how physical activity and exercise can help to combat some of the most common diseases that we are faced with in our day-to-day lives.

We have developed this course with a multidisciplinary approach to help you develop your knowledge and practical skills for a successful career in industry, health, education or pursue postgraduate research.

Start Date

September

Qualification

Degree

Study Method

Full time
