Engineering

Open University in Scotland

Content

An integrated masters is an undergraduate degree that combines undergraduate and postgraduate study. Our Master of Engineering (MEng) fulfils the educational requirements for Chartered Engineer status. Engineering is a creative and analytical subject. You'll develop the skills, techniques, and knowledge professional engineers need and learn the underpinning science and mathematics. The course has a common core with routes to suit your interests. You'll work on real-life projects to create innovative solutions to challenging problems, teaming up with other students and working individually on projects.

Start Date

October, April

Qualification

Degree

Study Method

Online learning

Award Title

MEng
