

Engineering

Open University in Scotland

Content

This MEng is an integrated masters degree that combines undergraduate and postgraduate study. It fulfils the educational requirements for Chartered Engineer status. Engineering is a creative and analytical subject. You'll develop the skills, techniques, concepts and knowledge needed by professional engineers, underpinned by science and mathematics. The course has a common core with a choice of routes to suit your area of interest. You'll work on real-life projects to create innovative solutions to challenging problems. You'll team up with other students and work on your own projects.
