

Environmental Science

Open University in Scotland

Content

Explore how humans interact with the natural world and learn to make a difference with this interdisciplinary diploma. You'll study biology, geography, chemistry, technology, and social science to understand environmental challenges and sustainable solutions. Along the way, you'll develop critical thinking, data analysis, and creative problem-solving skills. This qualification equips you for further study or careers in environmental management, conservation, or policy, providing you with the tools to approach real-world problems with insight, confidence, and practical expertise.

Start Date

October, February

Qualification

DipHE
