

Healthcare and Health Science

Open University in Scotland

Content

This degree will provide you with some of the skills required for working in health science and with the ability to apply evidence-based scientific methodology to health-related issues. The combination of healthcare and health science topics will equip you with a broad understanding which applies to a range of debates about the provision of healthcare, as well as enabling you to evaluate the relationship between scientific and social understandings about the promotion of health.

Start Date

October, February

Qualification

Degree
