Health Sciences

Open University in Scotland

Content

In this diploma, you'll study the essential scientific concepts underpinning the function of the human mind and body; the incidence, diagnosis and treatment of disease and disability; and the maintenance and improvement of health in different populations. If you're interested in the science behind our health – from what we can do as individuals to stay healthy, to global health issues such as epidemics or the treatment of people with dementia – this diploma is for you. It's particularly relevant if you work in health-related professions, or you're thinking about doing so.

Start Date

October, February

Qualification

DipHE

Study Method

Online learning

Course Length

Flexible

Faculty

General

Department

Health and Social Care
