

Healthcare with Health Science

Open University in Scotland

Content

This certificate is relevant to employment in healthcare and health science. You will explore the experience of receiving care and working in the care services, as well as investigating particular health conditions. Using science, maths, psychology and epidemiology, you will explore the causes and distribution of ill health and disability and their impact on individuals and populations. By the end of the course, you'll have developed a range of employability and study skills and an understanding of many important health issues.

Start Date

October, February

Qualification

CertHE

Study Method
