

Mathematical Sciences

Open University in Scotland

Content

This diploma will give you a thorough grounding in pure and applied mathematical concepts, theories and their uses, with the option to combine them with statistics to suit your needs and interests. You'll get practice with essential methods and tools; gain an appreciation of abstract mathematics and mathematical modelling; increase your familiarity with mathematical software; and build experience of communicating mathematical arguments and conclusions.

Start Date

October, February

Qualification

DipHE

Study Method

Distance and Flexible learning

Course Length

Flexible

Faculty

General

Department

Mathematics

Entry Requirements

There are no formal entry requirements to study this qualification, but it is very important that you are well prepared to study mathematics at this level.

Computer and internet access required.

SCQF Level

8
