Psychology

Open University in Scotland

Content

This diploma provides an accessible and engaging introduction to studying psychology. You'll learn about core areas of psychology, including biological, cognitive, developmental and social psychology. You'll explore a range of research methods used by psychologists and conduct your own psychological research, writing up the associated research reports as part of your assignments. You'll see how psychologists use evidence to contribute to debates on ageing, crime, education, employment, forensic science, mental health and relationships; and choose options to suit your interests.

Start Date

October, February

Qualification

DipHE

Study Method

Online learning

Course Length

Flexible

Faculty

General

Department

Psychology and Counselling

Entry Requirements

No formal entry requirements. Computer and internet access required.
