

Computer Games Development

City of Glasgow College

Venues

City Campus

Content

This course prepares you for employment in a junior developer role within the Computer Games Industry or a junior software developer role within the IT Industry. The HNC Computer Games Development qualification has progression routes to our 2nd year HND Computer Games Development course and to 2nd year BSc Games and Software Development degree programmes.

Students will use industry standard software (including GameMaker Studio, Unity, Unreal Engine) and hardware (PC, VR, mobile devices) for development.

Subjects you'll study include: 3D Modelling and Animation; Mathematics (Calculus and Matrices); Program Planning; Structured Programming for Games; Working within a Project Team; Graded Games Project.

Applicants should note that this course contains maths subjects and progression to year 2 depends on having an ability to pass these subject areas.

Start Date

August
