

Advanced Mechanical Engineering with Power Plant Technologies

University of Strathclyde

Content

Advanced Mechanical Engineering with Power Plant Technologies provides mechanical engineering graduates with an in-depth technical understanding of advanced mechanical engineering topics relevant to the power generation industry. You'll also develop generic skills that allow you to contribute effectively in developing company capabilities.

It helps to make you more employable and also satisfies the further learning requirements necessary to obtain Chartered Engineer status.

It is accredited by the Institution of Mechanical Engineers (IMechE) and provides a route for you to achieve Chartered Engineer status.

Start Date

September, January

Qualification

Postgraduate Master's

Study Method

Part time (day)

Award Title

MSc

Course Length

36 months

Faculty

Faculty of Engineering

Department

Mechanical and Aerospace Engineering

Entry Requirements

Normally a first-class or second-class honours degree (or international equivalent) in engineering or physical sciences, or equivalent professional qualification. A lower class degree may be considered with relevant work experience.

SCQF Level

11

Progression Routes
