

Genetic and Genomic Counselling (with Work Placement)

University of Glasgow

Venues

Gilmorehill Campus

Content

The MSc in Genetic and Genomic Counselling is designed to give students a working knowledge of the principles and practice of Genetic Counselling which will qualify them to practice as Genetic and Genomic Counsellors. The programme will be delivered by University of Glasgow staff in collaboration with NHS staff from the West of Scotland Genetics Service, so that a current perspective on both laboratory diagnostics and clinical services will be obtained. This programme is accredited by the UK Genetic Counsellor Registration Board.
