

Instrumentation Technician: Measurement and Control

North East Scotland College

Venues

Fraserburgh Campus

Content

This course will develop your knowledge and skills, taking you to a standard which will qualify you for a National Certificate Group Award. It acts as excellent preparation for progressing towards further study or employment.

This course will provide you with a fundamental insight into industrial systems control and instrumentation engineering. You will cover a range of key subjects including programmable logic controllers, mathematics, signal conditioning, control valves and more.

Start Date

August

Qualification

NC

Study Method

Part time (day)

Course Length

1 year

Department

Engineering

Entry Requirements

Contact institution

SCQF Level

6
