

Clinical Animal Behaviour

University of Edinburgh

Venues

Off Campus

Content

This programme provides flexible postgraduate study designed to specifically address the demand for online clinical animal behaviour teaching within a supported learning environment.

The programme will utilise an evidence-based approach to explore the potential motivations, management and treatment options for abnormal and/or problem behaviours commonly expressed by companion animal species living within a domestic environment.

The subject involves a multidisciplinary approach, drawing on knowledge and techniques from the fields of: psychology; ethology; neurobiology; pharmacology; veterinary science.

You can exit at the end of 2 years with PgCert Clinical Animal Behaviour.

You can exit at the end of 4 years with PgDip Clinical Animal Behaviour.

You can exit at the end of 1-2 years with PgProfDev Clinical Animal Behaviour.

Start Date

September
