

Design Innovation and Collaborative Creativity

Glasgow School of Art

Venues

Highlands and Islands Campus

Content

As the role of design, and the designer, within contemporary society continues to develop, so too does the nature and purpose of design practice. Design is not only an industrial or production-focused occupation; it is also becoming a critical tool for future-casting. This dynamic, new programme will explore the future, generate new knowledge and formulate hypotheses for how people might live moving forwards.

Whether we are members of a trade union, a “networked organisation,” public sector service provider or commercial enterprise, community group, artistic retreat or the citizenry in general, our social and socialised activities have social, cultural, economic and ecological consequences. This programme seeks to explore how the practices of collaborative creativity can be explored, employed and enhanced through meaningful engagement with others and the diverse lives that they lead.

You can exit after Stage 1 with PgCert Design Innovation and Collaborative Creativity.

You can exit after Stage 2 with PgDip Design Innovation and Collaborative Creativity.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MDes

Course Length

12 months

Department

School of Design

Entry Requirements

A good Honours degree in a relevant subject. See GSA website for details.

SCQF Level

11
