

## Architectural Technology with Digital Construction (2nd year entry)

City of Glasgow College

### Venues

City Campus

### Content

The course will bridge the skills gap between digital and technical knowledge which the industry is crying out for.

The planned holistic nature of delivery will help the course to be fit for purpose and be able to change to adapt with industry to reflect emerging best practice and focus on core skill development.

In addition to meeting industry demand, the course will develop students' self-management, social intelligence and innovation skills as well as allowing them to also develop critical industry and subject-specific technical/digital skills.
