

Engineering: Electrical

City of Glasgow College

Venues

Riverside Campus

Content

On this 2 year one day a week part time HNC Electrical Engineering course, you'll expand on the electrical principles covered in National 6 and higher-level education. During the course, you'll be taught by staff with significant industry experience to develop your skills in a range of theory and practical disciplines. Many of the course units are project-based with report writing included in a few first-year subject units and just over half in the second year subject units. In your first year, you will also undertake a final Graded Exam.

The course is designed to enable you to gain employment in the Electrical Engineering Industry and Electrical supply sector which deals with the production, transmission, distribution and application of electricity and the manufacture, installation, design and maintenance of electrical equipment.

Thursdays 09.00 - 17.00.
