

## Biomedical Engineering

University of Dundee

### Venues

City Campus

### Content

Biomedical Engineering combines engineering principles with medical and biological sciences to design and create equipment, devices, computer systems, and software used in healthcare.

This course offers taught core components and intensive research training. You will learn to solve a variety of engineering challenges in the medical field. You will also learn about the operating environments where these technologies are expected to function.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

BEng Hons

### UCAS Code

H160

### Course Length

4 years

### Department

Science and Engineering

### Entry Requirements

2023 entry requirements:

4 Highers at AABB (BBBB for widening access entry) including Maths and a science subject plus English at National 5.

Advanced entry to 2nd year available with Advanced Highers at AB including Maths plus Highers at AB (in different subjects).

## SCQF Level

10
