Old Aberdeen Campus

#### **Content**

The MEng is an integrated Masters degree that emphasises additional academic rigour and depth on top of the already high standards of our BSc. It adds an additional year of study to the traditional BSc, but there is also a greater focus on the academic and theoretical skills that high-end employers and academic institutions particularly value.

The MEng provides the opportunity for students to acquire a distinctive edge. It does this through increased depth of study, but it also requires students to demonstrate their ability by having them take on the most challenging subjects.

### **Start Date**

September

### Qualification

Degree

### **Study Method**

Full time

### **Award Title**

MEng

### **UCAS Code**

1101

### **Course Length**

5 years

### **Faculty**

**Physical Science**
