Content

Digital design is a form of visual communication which is an essential element of modern marketing and communication.

The HNC Digital Design and Web Development Course will give you the knowledge and skills required to design and develop interactive and digital media products. It will provide you with an up-to-date qualification within an ever-changing and in-demand industry. You will develop a wide range of transferable skills in several key areas including: web design and development, digital design, 2D animation, database design and development, audio/video production and programming.

This is a full-time course delivered on campus which includes classes, practical tutorials, project work and self-study sessions.
