Shell Engineering Scheme

North East Scotland College

Venues

Fraserburgh Campus

Content

This is a fast track advanced course looking for next generation of engineering technicians – have you got what it takes?

The Shell Engineering Scheme is exclusive to NESCol's Fraserburgh Campus. This is a sponsored programme designed to meet the demand of today's engineering sector.

It delivers a broad knowledge and skill set for electrical, mechanical and instrumentation engineering.

Four full-time qualifications are delivered over two years together with a leadership qualification and industrial placements.

Candidates can expect to receive an attendance allowance of approximately £130 per week in year 1, increasing to £150 in year 2.

Please note: This course does not follow the standard NESCol admissions procedure. Interviews will take place with the course academic tutor and a representative from Shell.

Start Date

August

Qualification

Other

Study Method

Full time

Course Length

2 years

Department

Engineering

Entry Requirements
