Computing and IT and Design

Open University in Scotland

Content

This degree provides you with both the technical expertise of computing and the creative insight of design, a combination sought after across various industries. You'll gain skills in programming, systems and digital technologies, while also developing design thinking to solve user-focused and sustainable challenges. As you progress, you'll tailor your computing pathway and apply your creativity through practical design modules. On completion, you'll be ready to shape digital products, services and solutions in technology, business or creative sectors.

This course is accredited by BCS, the Chartered Institute for IT.

Start Date

October, February, April

Qualification

Degree

Study Method
