Business Management (Accounting)

Open University in Scotland

Content

Are you interested in how accounting shapes business decisions and drives success? In this specialist accounting route of the business management degree, you'll learn how organisations operate while developing expertise in financial and management accounting. You'll explore the vital role accountants play, the types of information they manage, and how it informs both daily operations and strategic decisions. Alongside core business management studies, you'll learn to apply accounting techniques and concepts in the workplace, gaining skills and an interdisciplinary perspective that will prepare you for a variety of careers in business and accounting.
