

Computing and IT and Business

Open University in Scotland

Content

This is one of several subject combinations available in the Diploma of Higher Education in Computing and IT and a second subject. Computing and business have become closely intertwined throughout the world of work. You will gain insight into all facets of the world of business: markets, organisations, processes, strategies, policies and decision-making. You can choose the focus for your studies in computing and IT, selecting from computer science, digital technologies, networking, software development or web development. On completion of this diploma, you will have the knowledge and skills to contribute to computer-related projects in a business setting.
