

Computing and IT and Business

Open University in Scotland

Content

This diploma develops your computing skills alongside core business knowledge, including strategy, decision-making, and organisational processes. You'll explore how technology supports business operations and problem-solving, while building technical competence in programming, systems, and data management. By the end of the diploma, you'll be prepared to take on entry-level roles in IT support, business analysis, or digital operations, or to progress to the BSc (Honours) to specialise further.g.

Start Date

October, February, April

Qualification

DipHE
