

Computing and IT and Mathematics

Open University in Scotland

Content

Combining computing & IT with mathematics gives you powerful analytical and technical skills that are in high demand. You'll build firm foundations in both subjects in the early stages, then deepen your understanding of mathematical methods and modelling alongside a computing focus of your choice. Through your studies, you'll gain problem-solving, data analysis and software skills, and complete a computing project. On completion, you'll emerge well-prepared for roles in data science, technology, finance and research.

This course is accredited by BCS, The Chartered Institute for IT.

Start Date

October, February, April

Qualification

Degree

Study Method

Online learning

Award Title

BSc Hons

Course Length

Flexible

Faculty

General

Department

Computing and IT

Entry Requirements

There are no formal entry requirements to study this degree. Computer and internet access required.

If you're new to study or to the OU, it is recommended that you start with a course at Level 1.

Progression Routes

On successful completion of the required number and type of modules you will be awarded a Bachelor of Science (Honours) Computing and IT degree. Depending on which modules you choose the Computing and IT degree may help you to obtain professional recognition from BCS – the Chartered Institute for IT, or from the Institution of Engineering and Technology (IET). Both are professional bodies established by royal charter.
