

Computing and IT and Statistics

Open University in Scotland

Content

This degree combines computing & IT with statistics, equipping you with both technical and analytical skills in high demand across sectors. You'll study core computing modules alongside statistical methods, data analysis, and mathematical modelling. As you progress, you'll specialise in a computing pathway of your choice and complete a final-year project that integrates both disciplines. On completion, you'll be well-prepared for roles in data science, software development, financial technology, and research.

Start Date

October, February, April

Qualification

Degree

Study Method

Online learning

Award Title

BSc Hons

Course Length

Flexible

Progression Routes

On successful completion of the required number and type of modules you will be awarded a Bachelor of Science (Honours) Computing and IT degree. Depending on which modules you choose the Computing and IT degree may help you to obtain professional recognition from BCS – the Chartered Institute for IT, or from the Institution of Engineering and Technology (IET). Both are professional bodies established by royal charter.
