

Jewellery

Lews Castle College UHI

Venues

Lews Castle College Campus

Content

You will learn skills and techniques necessary to create precious metal jewellery. The focus will be on learning and developing practical jewellery making skills. You will also be encouraged to develop your own creative ideas and will be taught how to translate these ideas into finished, 3D pieces of jewellery.

The course will cover basic areas such as metal forming, piercing, soldering, stonsetting, jewellery design and CAD. By the end of the course students will have produced a substantial body of work and have gained confidence and skill to work with precious metals and produce their own individual style of jewellery.
