Computing and IT and Mathematics

Open University in Scotland

Content

This is one of several subject combinations available in the Certificate of Higher Education in Computing and IT and a second subject. You will learn basic ideas and tools of mathematics that underpin all kinds of mathematical reasoning. You will also explore the profound technological, economic, political and ethical change driven by digital technologies. The skills you will develop will prepare you for further study in which you can learn to manipulate abstract concepts, using them to build solutions to practical problems in a wide range of employment contexts.

Start Date

October, February, April

Qualification

CertHE

Study Method

Online learning

Course Length

Flexible

Faculty

General

Department

Mathematics

Entry Requirements

There are no formal entry requirements. Computer and internet access required.

SCQF Level

7
