Computing and IT and Statistics

Open University in Scotland

Content

In this certificate, you'll develop skills in computing & IT alongside statistical analysis. You'll learn programming, data management, and statistical methods, including probability and data visualisation. This combination equips you with the skills to analyse and interpret data, preparing you for roles in data analysis, business intelligence, or research. The certificate also serves as a stepping stone towards further study in computing and statistics.

Start Date

October, February, April

Qualification

CertHE

Study Method
