

Computing and IT and Psychology

Open University in Scotland

Content

This diploma develops your technical computing skills alongside psychology, exploring human behaviour, cognition, and interaction with technology. You'll learn programming, systems, and data analysis while gaining insights into user experience and social aspects of computing. On completion, you'll be prepared for entry-level roles in human-computer interaction, digital support, or research, or can continue to the BSc (Honours) to specialise further in computing and psychology.
