

## Natural Sciences (Environmental Science)

Open University in Scotland

### Content

Take a holistic view of our natural environment in this specialist environmental science route through our BSc (Honours) Natural Sciences (Q64), accredited by the Society for Natural Sciences. You'll investigate global warming, water resources, pollution, conservation, and the impacts of human activity, linking scientific knowledge with sustainability challenges. Developing practical, analytical, and interpretive skills through data analysis and research projects, you'll learn to assess complex environmental issues. This route prepares you for careers or further study in environmental management, policy, conservation, or research, providing a deep understanding of how natural systems function and interact in a changing world.

### Start Date

October, February

### Qualification

Degree

### Study Method

Online learning

### Award Title

BSc Hons

### Course Length

Flexible

### Faculty

General

### Department

Geography, Environment and Development

### Entry Requirements

There are no formal qualifications required to study this degree. Computer and internet access required.

If you're new to study or to the OU, it is recommended that you start with a course at Level 1.

### SCQF Level

10

## SCQF Points

«SCQFPoints»

## Progression Routes

Science graduates are well placed to enter a range of both scientific and non-scientific jobs. The study of science develops good analytical and numerical skills, and students also become proficient in using computers.
