

Natural Sciences (Astronomy and Planetary Science)

Open University in Scotland

Content

This IOP-recognised astronomy and planetary science route through our SNS-accredited BSc (Honours) Natural Sciences (Q64) develops the knowledge and skills you need to study outer space. You'll study topics like our solar system, planets orbiting other stars, the life cycle of stars, extreme conditions near black holes, and the evolutionary history of the Universe. Using appropriate quantitative tools and observational methods, you'll be able to objectively and quantitatively describe, analyse, test and explain phenomena in the Universe.

Start Date

October, February

Qualification

Degree

Study Method

Online learning

Award Title

BSc Hons

Course Length

Flexible

Faculty

General

Department

Science

Entry Requirements

There are no formal qualifications required to study this degree. Computer and internet access required.

If you're new to study or to the OU, it is recommended that you start with a course at Level 1.

SCQF Level

10

SCQF Points

«SCQFPoints»

Progression Routes

Science graduates are well placed to enter a range of both scientific and non-scientific jobs. The study of science develops good analytical and numerical skills, and students also become proficient in using computers.
