

Natural Sciences (Astronomy and Planetary Science)

Open University in Scotland

Content

Explore the Universe with this Society for Natural Sciences-accredited and IOP-recognised astronomy and planetary science route through our BSc (Honours) Natural Sciences. You'll study the solar system, exoplanets, the life cycles of stars, black holes, and cosmic evolution. Using quantitative tools and observational methods, you'll describe, analyse, and explain phenomena objectively and rigorously. Alongside developing your scientific literacy, you'll gain practical skills in data analysis and research techniques, preparing you for careers or further study in astronomy, space science, or related research fields.

Start Date

October, February

Qualification

Degree

Study Method

Online learning

Award Title

BSc Hons

Course Length

Flexible

Faculty

General

Department

Science

Entry Requirements

There are no formal qualifications required to study this degree. Computer and internet access required.

If you're new to study or to the OU, it is recommended that you start with a course at Level 1.

SCQF Level

10

SCQF Points

«SCQFPoints»

Progression Routes

Science graduates are well placed to enter a range of both scientific and non-scientific jobs. The study of science develops good analytical and numerical skills, and students also become proficient in using computers.
