

Veterinary Care Assistant

North Highland College UHI

Venues

Thurso Campus

Content

This Level 2 qualification is designed for those keen to work in a career where they are providing care to animals in a veterinary care environment, under the direction and supervision of Veterinary staff.

A progression route and starting point for those interested in a career as a Veterinary Nurse (successful completion of this course may lead to an opportunity to study on the Level 3 Diploma in Veterinary Nursing).

Ideal qualification for anyone presently working unqualified in veterinary practice in an animal care role.

A qualification in its own right designed to provide practice competence relevant to the role of veterinary carer in a modern veterinary practice.
