

Animal Care

Borders College

Venues

Newtown St Boswells Campus

Content

You will study topics including Practical Animal Feeding, Maintaining Animal Accommodation, Maintaining Animal Health, Handling and Care of Small Animals (including birds, fish and reptiles) and Core Skills. In practical classes you will undertake routine health care, feeding and handling techniques with a range of small animals.

This course will give learners an understanding of animal breeds and grooming, allowing the individual the opportunity to develop a range of skills and techniques, personal skills and attributes essential for successful performance in working life.
