

HIV Hepatitis B and Hepatitis C Infections (HN Units)

City of Glasgow College

Venues

City Campus

Content

This blended learning course is designed to enable you to develop knowledge and understanding of the methods of spread of HIV, Hepatitis B and Hepatitis C and ways of preventing this spread. You will gain knowledge of the signs, symptoms and the possible progression of each infection.

You will also examine the effects of prejudice and discrimination on infected individuals and how this may be challenged. Finally, you will investigate how infected individuals can use support services to promote their own well-being.

Thursday - 6.00pm - 7.00pm
