

Artificial Intelligence

Heriot-Watt University

Venues

Edinburgh Campus

Content

Our MSc in Artificial Intelligence aims to impart the understanding and skills to develop intelligent software applications, such as those involving evolutionary computation and learning.

Students will develop skills in specialist areas with clear applications in industry, including data mining, pattern recognition and machine learning. The MSc project in some cases can be carried out in collaboration with an outside industrial or academic organisation.

You can exit after 18 months with PgDip Artificial Intelligence.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Part time (day)

Award Title

MSc

Course Length

24 months

Faculty

School of Mathematical and Computer Sciences

Department

Computer Science

Entry Requirements

Good Honours degree which includes substantial component in Computer Science or IT.

Candidates holding less than a good honours degree or its equivalent but with compensating qualifications or experience may be admitted to the Postgraduate Diploma course. Transfer to the MSc will be possible later on if exam and course work are at MSc level.

SCQF Level

11
