

Marine Resource Development and Protection

Heriot-Watt University

Venues

Edinburgh Campus

Content

In these times of rapid global change, it is essential that scientists and environmental decision-makers understand the fundamentals of the technologies involved in different development options, whilst engineers should be encouraged to adopt an understanding of the environmental, socio-economic and political aspects of any proposed project.

This programme covers all of the above areas and its structure is sufficiently flexible to meet the wide variations in background of entrants - and their respective individual career plans. A major aim of the programme is to provide students with training in holistic approaches to addressing and solving environmental problems and we strive to maintain a mix of entrants from different disciplines, from UK, EU and overseas, and from both recent graduates as well as entrants with industrial experience. This mix has previously proven extremely useful in widening the horizons of the individual class members.

You can exit at the end of 18 months with PgCert Marine Resource Development and Protection.

You can exit at the end of 21 months with PgDip Marine Resource Development and Protection.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Part time (day)

Award Title

MSc

Course Length

24 months

Faculty

School of Energy, Geoscience, Infrastructure and Society

Department

Life Sciences

Entry Requirements

Masters (MSc) level entry applicants must have one of the following:

Minimum of 2:2 honours degree or equivalent academic qualification in a related subject area; For postgraduate conversion courses, non-related degrees will be considered; Corporate (or chartered) membership of relevant professional institutions will also be considered.

PG Diploma level entry applicants must have an ordinary degree in a related subject area and relevant post qualification industry experience.

Candidates who do not meet the above entry requirements or have no formal academic qualifications will be considered individually based on their CV and possibly interview. Admission via this route will be at the discretion of the Director of Recruitment.
