

Technical Ship Management

University of Strathclyde

Content

This course is designed to give graduate engineers and well-qualified sea-going personnel an opportunity to acquire the knowledge and skills required for technical ship management.

90% of world trade is carried by sea. You'll gain an understanding of the subjects essential for effective and efficient management of ships and fleets. This course allows you to develop multidisciplinary interests and skills by working with other areas of naval architecture, ocean and marine engineering.

As a graduate you could expect to work in the industry as a technical ship superintendent or manager.

You can exit at the end of 9 months with PgDip Technical Ship Management.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

12 months

Faculty

Faculty of Engineering

Department

Naval Architecture, Ocean and Marine Engineering
