

# Clinical Pharmacy Service Development

Robert Gordon University

## Content

This course is an exciting and varied blend of academic and clinical learning. It will provide you with a unique learning experience, and the professional knowledge and skills required to develop your practice and excel as a clinical pharmacy practitioner.

In the Patient Centered Clinical Pharmacy Practice module you will develop the knowledge and skills required for the systematic synthesis, implementation, evaluation and communication of care plans for patients with complex pharmaceutical care needs.

In the modules Implementing and Evaluating Clinical Pharmacy Service and Organisational Aspects of Clinical Pharmacy Service Development and Implementation you will consider the service-related aspects of being a clinical pharmacy practitioner. You will develop the knowledge and skills necessary to systematically implement services and to evaluate service outcomes, utilising evidence-based recommendations to develop services in order to improve health. You will develop practical experience of designing a research project in providing you with the knowledge and skills required to design, execute and report on a research project.

You can exit after Stage 1 with PgCert Clinical Pharmacy Service Development.

You can exit after Stage 2 with PgDip Clinical Pharmacy Service Development.
