

Banking and Risk

University of Edinburgh

Venues

Central Campus

Content

The aim of the MSc in Banking and Risk is to give students the knowledge, understanding and key skills that will enable them to be effective managers in financial institutions, especially banks, in any country in the world.

Recent events demonstrate that the successful management of banks is of crucial importance to western economies. Banking is an industry rather than an academic discipline, and the study of the management of banks is multidisciplinary.

The approach of this programme is to consider the structural, financial and risk and asset management functions of banks.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

1 year

Faculty

College of Arts, Humanities and Social Sciences
