Content

This course builds on your skills and knowledge gained on the HNC about human behaviour and society. You'll develop a deeper awareness and understanding of social and cultural issues relevant to modern society.

Here's just some of what you'll be doing:

Critically examine psychological debates such as nature/nurture, free will and determinism, and ethics; Analyse sociological theories and debates underpinning current topical issues; Evaluate the structures and relationships within the European Union and American Political Systems; Study major events in American history and evaluate their social and political impacts; and, Examine the issues surrounding research in social sciences and carry out an investigative project of your choice.
