

## Global Subsea Engineering

University of Aberdeen

### Venues

Old Aberdeen Campus

### Content

This masters program draws on the niche expertise of University of Aberdeen and Curtin University in the field of subsea engineering and offers students a seamless global education experience where students spend time at each institution. You will receive a degree recognising study at both universities.

The course provides an in-depth understanding of subsea infrastructure, construction and maintenance, subsea surveying and installation, safety and regulation. It has been designed to produce the career-ready engineers that the highly technical subsea industry requires. At the successful completion of the course students will be awarded a degree recognising their study at both institutions.

### Start Date

September

### Qualification

Postgraduate Master's

### Study Method

Full time

### Award Title

MSc

### Course Length

13 months

### Faculty

Physical Science

### Department

Engineering

### Entry Requirements

A 2:1 (upper second class) UK Honours degree, or an Honours degree from a non-UK institution which is judged by the

University to be of equivalent worth in any branch of Engineering.

Students with a 2:1 in Applied Mathematics or Physics may also be considered on a case-by-case basis. Those with a 2:2 Honours degree in Engineering may also be considered if they can demonstrate 3+ years of relevant Oil and Gas Industry experience.

Key subjects you must have covered: Mathematics, Stress Analysis, Strength of Materials, Dynamics, Fluids, Thermodynamics and Engineering Design.

## SCQF Level

11
