

Neuroscience

University of St Andrews

Content

The MRes in Neuroscience is designed to provide advanced training in neuroscience research. Students conduct a year-long research project and learn relevant techniques and skills through course work. Research projects are carried out in a single laboratory over the full length of the programme, thereby giving students a unique opportunity to pursue research questions in depth. The overall aim is to help students acquire the skills needed to succeed as independent research scientists.

Start Date

August

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MRes

Course Length

1 year

Faculty

Faculty of Science

Department

Psychology and Neuroscience

Entry Requirements

Undergraduate degree (typically 2.1 or higher) in a science-related subject (such as neuroscience, chemistry, physics, biology, psychology, computer science).

SCQF Level

11

Address

College Gate
St Andrews
Fife
KY16 9AJ
