

Oral Sciences

University of Glasgow

Venues

Gilmorehill Campus

Content

This MSc programme is designed to provide students with an in-depth working knowledge of the principles and practice related to Oral Sciences. The major strength of this programme is that the programme is aligned to and delivered by internationally renowned members from the Oral Sciences Research Group located within Glasgow Dental School.

Students will experience and participate in cutting edge research within the theme while learning techniques widely relevant to biomedical sciences. This programme will be of particular interest to those interested in pursuing or furthering careers in oral and dental related occupations, as well as laboratory scientists or academics. This programme also enables graduates to gain experience in research before applying to a doctoral programme.
