Off campus

Content

This programme is delivered by the Institute of Motion Analysis & Research within the Department of Orthopaedic and Trauma Surgery at the TORT Centre.

The MSc in Motion Analysis was launched in 2006 and is designed to provide an understanding of the principles of musculoskeletal movements and the methods to measure and analyse movements based on clinical applications by leading experts in Foot Pressure Analysis, Clinical Gait Analysis, Simulation and Modelling, and Instrumentation and Modelling.

This programme is suitable for students at graduate level from medicine, podiatry, physiotherapy, physiology, sports, science, engineering, sports exercise, and clinical health professions.

You can exit after 12 months with PgCert Motion Analysis

You can exit after 24 months with PgDip Motion Analysis.
