

Public Health

University of Dundee

Venues

City Campus

Content

This Masters in Public Health course (MPH) provides high quality training in the application of epidemiological, statistical and behavioural techniques used in public health practice and research. We have students from clinical and health related disciplines from the UK and all over the world.

You will have the opportunity to improve generic and transferable skills and will be ideally placed to pursue a career in research or public health practice. The course also provides an ideal springboard for further postgraduate study at PhD level.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Part time (day)

Award Title

MPH

Course Length

24 months

Department

Medicine, Dentistry and Nursing

Entry Requirements

You should hold a first class or upper second class degree. Entry is normally restricted to graduates in medicine, dentistry, nursing and health-related sciences. Exceptionally, students are accepted without a first degree but in such instances they should have professional qualifications and hold senior posts.

SCQF Level

11
