

Introduction to Science

Edinburgh College

Venues

Sighthill Campus

Content

This course is designed to prepare you for further study in Science related subjects. On this exciting introductory course, you will discover why Science could be the right career path for you. You will study a variety of topics across a range of Science, Technology, Engineering and Mathematics (STEM) subjects.

Our Science department offers you the opportunity to study in purpose-built laboratories. These will support the development of your general and specialist practical skills whilst enhancing your theoretical understanding of science. Upon completion of this course, all students will receive a National Progression Award (NPA) in Science and Technology.

Content: Biology, Physics, Chemistry, Mathematics.

Start Date

August, January

Qualification

Other
