

## Computing

Glasgow Clyde College

### Venues

Anniesland Campus  
Cardonald Campus  
Langside Campus

### Content

HNC Computing is one of SQA's longest established and one of the most popular National awards. It covers a wide range of computing subject areas and it allows you to progress further towards the HND qualifications in Computing Science, Networking, Software Engineering, or Technical Support

Content includes:

System fundamentals; Software development; Troubleshooting computing problems; Networking technology; Web development; Computer forensics; Ethical hacking; Project management; Database Fundamentals

Students on this course have the added opportunity to acquire further vendor qualification such as Cisco Certified Network Associate (CCNA), CompTIA A+ and Microsoft MCITP which are all highly desired by employers.

### Start Date

August

### Qualification

HNC

### Study Method

Full time

### Course Length
